The Foundation of Science

Science is grounded in observation, experimentation, and data.

- ▶ Usually this misrepresentation is only an annoyance and of little consequence. *Random conversations in various online forums.*
- ▶ Too often this misrepresentation facilitates careless thinking leading to disastrous results. *Homeopathy, Facilitated Communication, and Creationism.*

I know you believe you understand what you think I said, but I am not sure you realize that what you heard is not what I meant.¹

¹Robert J. McCloskey, U.S. State Department spokesman.

From a press briefing during the Vietnam war

Justifying Part Two

How can we understand inherently unknowable processes?

Justifying Part Two

How can we understand inherently unknowable processes?

I debated including this second part.

Justifying Part Two

How can we understand inherently unknowable processes?

I debated including this second part.

I thought of it as an aside only of tangential interest until

I had a conversation with Robert of Ultra Pure Water, Inc.

Justifying Part Two

How can we understand inherently unknowable processes?

I debated including this second part.

I thought of it as an aside only of tangential interest until

I had a conversation with Robert of Ultra Pure Water, Inc.

... during which I was reminded of a conversation I had at the ...

Trigger Reactor Site

in Los Alamos during the summer of 1976

Trigger Reactor Site

in Los Alamos during the summer of 1976
concerning the purity of the Trigger Reactor water

Trigger Reactor Site

in Los Alamos during the summer of 1976
concerning the purity of the Trigger Reactor water

wherein I mentioned Distilled Water ... and got schooled.

Too Precise

Later I thought of the student measuring voltages in a lab class.

Too Precise

Later I thought of the student measuring voltages in a lab class.

Which led me to remember the ...

Confontation

with a former student one hot summer afternoon.

Confrontation

with a former student one hot summer afternoon.

“I know what you were trying to do!”

Confrontation

with a former student one hot summer afternoon.

“I know what you were trying to do!”

“You were trying to get us to think.”

Part Two is Necessary

Part Two is Necessary

Because, it's no longer just a science thing,

Part Two is Necessary

Because, it's no longer just a science thing,

a generalized existential crises has become manifest.

The Choice is Yours

This is your last chance. After this, there is no turning back. You take the blue pill – the story ends, you wake up in your bed and believe whatever you want to believe. You take the red pill – you stay in Wonderland and I show you how deep the rabbit-hole goes.²

²Morpheus to Neo, giving him the choice ... think different.

What Do You Really Know and/or Understand?

What Do You Really Know and/or Understand?

Describe the orbit of the Earth and its (Many ?) Moon(s).

What Do You Really Know and/or Understand?

Describe the orbit of the Earth and its (Many ?) Moon(s).

Prove (*id est*, show to be absolutely true) $1 + 1 = 2$.

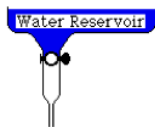

What Do You Really Know and/or Understand?

Describe the orbit of the Earth and its (Many ?) Moon(s).

Prove (*id est*, show to be absolutely true) $1 + 1 = 2$.

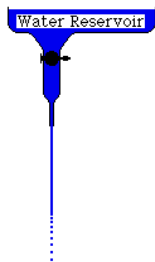

Explain the following conundrum:

Falling Water³

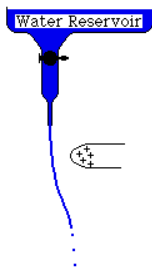

³With apologies to Frank Lloyd Wright

Falling Water

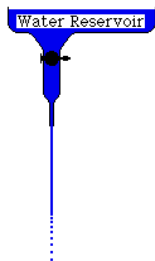

Falling Water - Positive Charge⁴

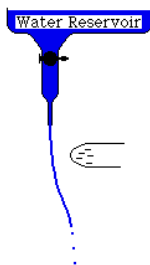

⁴Glass Rod / Silk

Falling Water

Falling Water - Negative Charge⁵

⁵Rubber Rod / Wool

Falling Water
